Have your picture taken by an Indian in the museum, on the canal boat or in front of the beautiful “Princess Feather” barn quilt. **Johnston Farm and Indian Agency**...The Piqua Historical Area State Memorial is home to the General Harrison replica canal boat, the Johnston Farm home (from the 1800’s) and the Woodland Indian and Canal Museum. For \$8/person, your group can visit all three sites within this one attraction.

Not just good... Home. Grown. Great.

There is a 19th century two-story historic brick home of Col. John Johnston, former US Indian agent and canal commissioner. Costumed interpreters and craft demonstrators provide tours through this preserved and furnished home, the cider house and a unique two-story spring house which holds a loom.

Visitors will take a canal boat ride on a one-mile re-watered section of the Miami-Erie Canal. The General Harrison is a replica of a nineteenth-century mixed-cargo canal boat of the 1840-1850 era, representative of the main transportation utilized by farmers to transport their produce to market prior to the time when railroads began to fill that role, signaling the end of the canal boat era. Costumed boat guides and interpreters direct the mule-drawn boat to provide an authentic and memorable experience for all (holds up to 80 passengers). This unique historical area enables guests to experience the joys of this former method of transportation.

You will enjoy a catered lunch (approximately \$10/person depending on your menu selections) at the Historical Indian and Canal Museum which houses authentic Native American tools, clothing, jewelry and other artifacts. It relates the story of the lives with the earliest settlers to Southwest, Ohio. The museum is open April through October. Reservations required for groups. Restrooms are located inside the museum. Guided tours available.
